RICHMOND, CALIFORNIA, FRIDAY, MARCH 16, 1923

Further Improvements For City Waterfront

Harbor Work For City Santa Barbara to Have Has Funds to Go Ahead

Word comes from Congressman a total of \$267,000 will be available for further harbor improvements the use of the money.

There is a balance of \$67,000 in the federal harbor improvemen fund for Richmond, and an addi tional \$100,000 coming up when matched by a like amount by

Colonel Deakyne, the government engineer in charge, will be conferred with by the city officials es to future activities.

Senate Passes False News Item Bill

Sacramento, March 16. - The senate passed Seputor Sharkey's bill making it a misdemeanor for any person to furnish news items which are known to be untrue and which result in court action against the periodical which prints

Father Ricard's Forecast For March 15-16

Santa Clara, March 17.-Heavy storms will rise from the ocean, spread over the general coast and greatly disturb its weather with south winds, rain and snow. A biting cold wave will start over the northwest on the 14th and ward, which will take in Southern California.

California Leads All Other States

California leads all other states in water power construction and hydro-electric plants under construction. In 1922 there were added 152,813 horsepower to the installed capacity of the state.

Of all the electric energy generated in this country, two-thirds is generated by steam and onethird by water. California with one-thirtieth the population of the country leads populous New York state, with her harnessed Niagara

Pick-Up For City

According to City Tax Collector the city council Monday night, 145 deeds for delinquent taxes to property sold five years ago were filed.

Summer Camp for Girls

Lake Tahoe, March 16.-A camp for girls under the direction of Miss Florence Bosse of San Francisco will be opened here in June.

Round irip rates will be put in effect by the Southern Pacific April 27. Tahoe Tavern will open June 30, 1923.

Alpha Gives Banquet

Alpha Lodge No. 431, F. & A banquets at the regular session o niley, McGrath, Hammon and Gasser were the committee.

Immense Water Plant

Chas. F. Curry at Washington that city is to have one of the finest 39 years old. water plants in the state when completed. Work has started on at Richmond, pending the decision the \$850,000 plant, which will give and plans of the government for the city an adequate supply of pure nountain water.

Pullman Company Loses Suit to Nullify Taxes

Washington, March 15. - The supreme court upheld the California law taxing gross receipts of public service corporations. The Pullman company had sued to nullify taxes. A constitutional posed three to four per cent tax on public service corporations to replace common taxation. The supreme court held that California could prevent companies refusing to pay the tax from doing business within the state, but could not interfere with interstate business.

Subway Work Goes On

Work on the subway is progressing day by day, and in time the job will be completed, it is boped by a patient public, who are making detours month by month, etc.

STEER HAS NO HAIR ON NOSE

Incident at the Siege of Jericho Which It is Alleged, Accounts
for it.

The Talmud and all Jewish chronicles bear witness that Joshua was a very big man. He was so big that there wasn't a mule in all Israel strong enough to stand up under his weight—to say nothing of carrying him on a forced march, according to the Detroit News.

When the 12 tribes came to the entrance into the promised land there was a scurrying about to find an animal strong enough to carry the leader over to Jericho. But none could be found. Every kind of four-footed animal was brought up to him and all were discarded as no good. At last, Dan, the Adder in the Path, led up a likely young steer and presented him to Joshua. The steer's back was strong, and

it carried the warrior seven times round the beleaguered city without flinching. Joshus was so pleased with the honest behavior of his steed that when the walls of the city had fallen he sprang from the ani mal's back and in the exuberance of warlike joy rushed to its head and, in oriental manner, kissed it on the

Since then no steer has ever had any hair on its nose.

Removing Paint From Wood,
To rid room of had odor give it a
ceat of paint or varish. If a dead
rat or mouse causes the trouble the
odor will last until the little creature
is entirely dried up. Lye will take
off paint but would injure the wood
for applying paint to later. Use a
paint remover bought at a paint shop.

He will be buried in Woodland at the side of his mother in the to a general cleanup of the city. family plot, the funeral to be held omorrow, Saturday.

Kind-hearted, jovial Jack Brees will be missed in West Macdonald avenue where was so well and favorably known.

Coroner's Inquests

Two inquests were held Tuesday amendment adopted in 1910 im- night by Coroner Charles F. Don-

> The jury found that the death of Mrs. Marie Garletti at Stege, who was drowned in the mud flats. was due to asphyxiation, with suicidal intent.

The jury, in the matter of the death of Paul Pucci, killed by a Santa Pe train at 8th street, was anable to fix the responsibility.

The jury: E. W. Hancher, A. Schimpff, E. G. Lowell, E. C. Axelson, William Coe, J. E. Lane James A. Hansell.

REMINDER OF ANCIENT TIMES Girdle of Today is Counterpart of That Worn by Both Sexce in the Broats Ages

Girdles of metal adorned with brilliant ornaments, now quite com monly used largely for purposes of ornamentation in women's dress, are a reminder of a custom of ancient times, when they were worn by both men and women to control their long, flowing garments.

They were not always of metal. but often of linen or leather. The girdle also served for the support of weapons, utensils, bags or pockets, etc. In the Middle ages books were sometimes bound with a flexible stuff hanging from one end of the volume, which could be drawn through the girdle and secured.

Among some peoples, even in this day, the girdle is put to practical use. Being large and loose, the scabbard of a sword or long dagger is passed through the girdle, instead of being suspended from it, a hook or projecting button serving to hold it in place.—Pearson's Weekly.

SUGAR BEET CROP OF EUROPE

The weather conditions in September were favorable to the sugar beet crop in European countries, and former estimates of the sugar ances, be revised upward, says Special Agent Dennis in a report to the Department of Commerce. In the first weeks of September the crop ex-pectations of Czechoslovakia alone had risen by 50,000 tons, and from official sources the latest informasugar crop will exceed that of last year by about 400,000 tons.

NEW FISH IN JAPAN

In Japan a new fish has been caught, peculiar in form and so far unknown to science. It was caught by a Japanese fisherman 13 miles off shore in water 1,200 feet deep. It weighed 150 pounds, is flat and al-most circular. Silver is its principal color, with its fins and snout of scarlet. The head is mottled with dark gray and the eyes are round and about four inches in diameter. This remarkable fish was taken to exhibition.

Tax Collections

The city tax collector report for the month of February which was submitted at Monday night's council meeting, showed that \$6495 has been collected.

From San Jose

W. A. Shults and family of San Jose have moved to Richmond and will make this city their future home. Shultz is employed by the Standard Oil Co.

City Auditor's Report

The city auditor's report shows a balance for the month of Feb-ruary of \$177,578.

BUCKS GENTURIES OLD

Some of England's oldest art treasures, from Furham cathedral's monastic library, were recently brought to London and placed on view at the Victoria and Albert mu-seum. Most of the or to in northern seum. Most of the vertice no them English of the earlier Anglo-frish schools of kindisfarue and Durham, and the examples of caligraphy and illumination range in dates from the Seventh to the Seventeenth century. Among the manuscripts are two tra-ditionally attributed in the Middle ages to the venerabla Bede, but this ascription is not now accepted. There are, also, several of the books given to the monastery by Bishops William de St. Carlieph (1080-96) and Hugh de Pulset (Pudsey) (1151-95). Three of the four volumes of Pudsey's Bible, as one of the most splendid in existence, are included in the exhibits.-London

MUCH MONEY SAVED

Special weather forecasts furnished by the United States Department of Agriculture, through coun ty extension agents, in seven New York counties, were of direct serv-ice to over 2,500 fruit growers in that state in guiding their spraying operations and saved them severa thousands of dollars in the manage ment of their fruit crops, according to reports to the New York State College of Agriculture. In four of tem was developed, by means of which it was possible to warn the growers quickly when it was time to apply the spray. This system was used throughout the season when ever occasion demanded. At other times and in counties where this re lay system was not used circular letters and post cards carried the infor

SHOE SHINE ANKLE CLASP

Now that the women have gone back to the long, flowing dresses, Tony, the bootblack, is busy hunting up his stock of wire ankle clasps dis-carded during the regime of short skirts. Women patrons of the shine stands are particular and want no blacking spots on the hems of their draperies, so Tony just clamps a pair of these wire clasps around the frills and furbelows of milady's ankles and the shine proceeds without a complaint from the most meticulous patron.—New York Sup.

WOMAN'S WEALTH OF HAIR

markable, Indeed, Is the Length With Which Dame Nature Has Aliotted to Some

Some time ago a lady received a prize for her hair, which was six feet in length. A more extraordinary case was that of a Texan woman whose red-gold tresses measured nine feet, of which four feet, when uncertained, trailed upon the ground, Actresses have supplied from their ranks many examples of the liberality of nature in this respect. A famous example was the re-nowned Mrs. Astley, of a past generation. She could stand upon her hair, which by its profuseness near-ly cost her her life, for it once caught fire on the stage. After that she wound it round her head and covered it with a wig, with the resuit that her head appeared of ab-normal size. But while it is not unique to find hair growing to a length of six feet, it is still very uncommon. How uncommon was testified by a London West end hairdresser, who stated that out of 25,-000 ladies whose heads he had dressed not more than three had hair which touched the ground when they were seated.

PECLAIMING ITALIAN LAND

Pursuing a policy of land recla-mation the Italian government, working with private associations, has brought under cultivation 500. 000 acres of land which otherwise would be virtually worthless.

In the Ferrara and Modena districts a drainage basin covering over 200,000 acres has been completed and 150,000 miles of ditches have been built. This work has cost already 30,000,000 lire and further drainage and irrigation projects will cost as much again.

In the Polesine-San Giorgio distriet 125,000 acres of swampy, ma-larious land has been converted into of Italy.

The Oueer Little Feeling

By LILY WANDEL

Maisle Rawley looked speculatively at Dick and shook her head. The eyes that looked at him from under the of her big black hat, et at an exaggerated angle of tightly curled bobbed hair, were fired Little lines were beginning to show at

"Dick, old boy, you're a bum actor; more out of work than in, you'll admit, and Maisie Rawley isn't going to married to go on the road, believe I'm tired of this." She looked at me! I'm tired of this." She looked at the cheap furnishings of the shabby boarding-house parlor. "I'm dog-gone tired of cheap places, cheap clothes, cheap restaurants and cheap shows! And I'm not going to get married to

"Aw, Maisie, we may have som luck. I'm trying to get on that vaude-ville circuit. Now, couldn't we do an act together and—"

"Nix. When I marry, my husband is going to support me. I'm tired of

"All right, Maisle. I'll get an act

"Oh, cut It out. Dick, and come down on, cut it out, Dick, and come down to earth! You've never been able to get on a circuit—been trying for the last fifteen years, too." She began to powder an aiready whitened nose, sending little clouds of dust over her

"Maisie," there was tenderness mixed with humor in Dick Burns voice, "ain't we in the same boat, old girl? You're tired of 'five and ten' cosmetics and I'm sick of trimming my cuffs and pasting adhesive plaster on the shiny seams of this checked suit. Maisie, let's break away!" He looked at her breathlessly.

Maisie calmly slipped the powder pad in the V of her dress and shook her skirt. "Dick," she answered gently, "that would be plain suicide."

"You're forty and I'm almost thirty. You can't teach an old dog new tricks. You'll go on this way Dick, working now and then, borrowing a little, starving a little, starving a little. It would be the same with me, Dick, if I joined forces with you. My dancing isn't much, and in a few years I'll be faded, living as I do, Nourishment and care preserve a woman's beauty, not hash and cheap hotel rooms, three in a bed, catching early trains in drizzling rains. I'll be frank, Dick. I want to marry well; I want a little comfort and good food, and I think I see a chance of getting

Dick got slowly to his feet. "I don't blame you." He made an effort to speak jovially. "Here's good luck to you. I wish you the best."

When he had gone Maisie's throat felt queer and she hastily dabbed at her eyes with a pink cotton handker chief to save her complexion from the tears that were about to fall.

"Miss Rawley!" Mrs. Snyder put in frowsy head. "Mail carrier has a registered letter for you.'

A few hours later Malsie sat in the train, a bulging old suitease at her feet, a trembling, wondering smile on her carmined lips. "I think I'd better pinch myself to make sure—after all it might be a dream. Gee, what a blessing I didn't accept Dick Burns! blessing I didn't accept Dick Burns! Imagine being engaged to him, that poor hambone!" She snickered a little to berself in sheer Joy. "Now I don't even have to marry anyone if I don't want to; maybe I will, though, some day. Fil marry for love. I'll meet some man at a country club. One of the first things I'll do will be to lone a swart country club. I'll have join a smart country club. I'll buy a roadster and I'll have a saddle

Maisie fairly hugged herself. "And that Uncle Timothy Rawley—course, I knew he was as rich as the dickens, but I thought he'd live to be ninety, and here I am, Maisie Rawley, ex chorus lady, sole heir of all his real and personal estate! I can hardly believe it! I can just faintly remember that big country place he had. I was always so sorry that my dad had quarreted with him. I thought it would be so nice to visit there. And now I own it! I wish I had had the money to fix myself up a little better.
What'll the servants think? Oh, well, in a few days!" Thus Maisle's thoughts and plans spun along as the train flew past fields and hills

At last they pulled in at Hillsboro, a tiny dusty town that Maisie faintly remembered leaving with her parents when she was a child. Hurriedly she inquired her way to the office of the attorneys, "Briggs & Brill," and hastened down Main street with her ing, her lips parted; she scarcely no ticed the weight of her burden.

Mr. Brill proved to be a thin-lipped, naughty, fat-stomached snob and the couple of clerks, disinterested, coldered. Maisie felt somewhat chilled; sie was sure Mr. Briggs resented her presence and that Mr. Brill did not approve of her spangled hat nor her complexion. She had expected a different reception; it was a little disap-

reception; it was a tittle disapm. There was a "Sign here,
a" and then, "That is all." Muisie,
sed, gazed helpicesty about,
uld you cuil a taxi—or a hack to
me out?" she stammered.
Brill mid to one of the cherks;
lenkins; he'll be your neighbor
th take you out for fifty centa."

Still in a daze Maisie stepped into

a moldy old buggy beside an over-alled, wrinkled-faced farmer, but at least ne scalled in a friendly way. "Wall, wall, so you be old Rawley's niece, eh? Going to live out his place?"
Maisie nodded. "And be that his bank book you're clutching?"
Maisie hastily looked at what old Brill had put in her hand.

The old farmer chuckled and slapped

the reins on the white nag's back. Maisie, sitting beside him, uncomfor-table, confused, wondered why he kept chuckling.

"Wall," reining in his horse before a broken gate that led to a weedy garden and a tiny, dilapidated cottage, here we are!" "Is this where you live?" asked

Maisie, making no move to get out.
"No, I live right beyond that hill.
This is your uncle's place." Climbing out he deposited Maisle's suitcase or the ground. "Now, jump! There! Wall, good-night, wish you luck in your new house! If you want any-thing go to the top of that there hill and holler. We'll hear you." He climbed in the buggy, leaving an open-mouthed Malsie standing. "Your uncle wasn't a bad sort," he called back, 'if he hadn't drunk himself to death And they say he was a rich man a one, time, too."

When he was out of sight Maisie just slipped to the ground and sat on her suitcase, too stunned, too sick to even cry out her cruel disappointment. A few hours later she managed to

A rew hours later she managed to start a fire in the rusty little kitchen stove, then lighted a lamp and found some tea and crackers. From her suitense she pulled a pad and pencil. "I'm glad," said Maisle to herself, "that I never said a word to anybody about this inheritance." Then she becan to write her letter.

gan to write her letter.

" . . . and if you'll come, Dick, we'll get married and live right here!

It isn't much of a place, but it's some-thing to start on and it has possibili-ties. There's a few hundred dollars in the bank and I think we'll buy some chickens and ducks and maybe a cow! I want to tell you something, Dick-you and I will never amount to much on the stage and I'm so heartly sick of tawdry finery and make-up that the thought of a percale bungalow apron and a clean washed face seems like heaven to me. And as I look around this little kitchen (it's going to get an awful scrubbing first thing in the morning) a queer little feeling comes over me. I don't know what it is, Dick, but I want you to share it with me. It's sort of a feeling of content, Dick, knowing this little place is really ny own, and I guess, maybe, I'd call

INSANE OVER PASSION PLAY

Tragedy That Not Infrequently Ove takes Men and Women of Town of Oberammergau.

There is no art without passion, and man must know passion, suffer under t, or attain it imaginatively, to put it

There must be passion to spare in Oberammergau-a quiet, deep under current of it running through the entire life of any likely candidate for a principal role. Not only passion, but tragedy, culminates in each decade's election. It is decorously held in hand by the respect for tradition and by the continental reverence for elders assembled in committee.

Each election is not only a clash between youth and age; the years be tween signify that a favored candi-date for the role of Christus, who has approached the age of thirty, missing election, misses every chance to play the part; for at the next voting, he is opposed not only by his own former defeat, but, in his turn, by youth.

I had an inkling of the devastating disappointment of such defeat when I met the wood carver, Aloysius Lang, the understudy to Anton Lang and his most formidable rival. He is twentysix, athletic, and almost the handsom est man I have ever seen. He will play the role of Nicodemus, and, barring accident, never that of Christus.

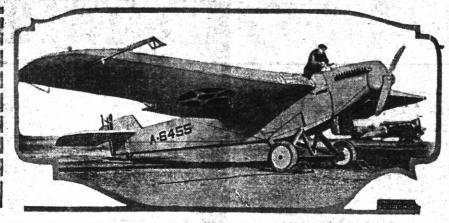

Behind the performance of the Pas-sion play there is all-pervading pre-paratory passion to spare. Men and women have gone insane over their roles; only "unblemished women" be-ing permitted to act, girls have de-ferred their marriage for years, on the hint that they might be chosen for one of the Marys; and at least one Judas sought to hang himself.— Judas sought to hang himself.-Ferdinand Reylier in the Atlantic Monthly.

Cosmopolitan City.

There is a famous miraculous shrine of the Virgin above the Porta Aciale in Vilna, capital of the Lithuanian republic, beneath which kneel pilgrims who come there from places hundreds women afford the strangest scher of color. At a stone's throw from the shrine a Mohammedan mosque, with its low twin towers, makes one think of Meeca. Within sight of the mosque and the shrine thrive several very at cient Jewish synagogues and Talmud-ical schools, which were, and still are, the seat of Hebrew culture in Europe.

There is a Russian quarter, a Po-lish quarter, and a Jewish quarter in Vilna, and even the old Tariars still retain most of their characteristics. Most of the people of the different

ration of spinning the propeller on the navy's first all-metal flying machine, just completed and tested at Martin held, Cleveland, O. The machine is of necessity a monoplane to meet the navy requirements for observation purposes, and has no "blind spots." At no angle could an enemy plane approach without being observed by two members of the crew of three.

Menace of Auto

Various Punishments Meted Out to Stop Steadily Mounting Toll of Victims.

JAIL SENTENCES EFFECTIVE

Digest of Reports From Middle Western States Shows Methods Being Employed to Check Evil-Fines \$2 Per Mile.

What do you think ought to be done to stop the slaughter by auto speeders?

......

Chicago,—Heavier fines, jaii sen-tences and trips through morgues and hospitals to view the dead and injured victims of reckless automobilists are becoming effective in many parts of the Middle West to curb the steadily counting toll of auto victims, a diges from the report of several states

Fines alone, the reports indicate, are not proving effective. In Chicago and Cook county, despite increasingly heavy fines, the death toll in auto-mobile accidents for the fiscal year ending November 30 was 736 lives, as compared with 660 last year and 542 the year before. There were 75 auto-mobile deaths in November of this year.

In Louisville, where 41 persons wer In Louisville, where at persons were killed by automobiles in the first eleven months of the year, fines have also fulled, officials say. One police judge there imposes fines of \$2 for each mile per hour on speeders, and adds jail sentences if the prisoner was highly servered. intoxicated.

A successful campaign was launched at Detroit more than a year ago, when Judge Charles L. Bartlett began sending speeders to jail for terms of one to fifteen days. Among those sentenced was John Duval Dodge, wealthy young man, who served five days.

Recently speeding returned to De-

troit and Judge Bartlett began con ducting offenders through the morgues and hospitals to see the results of speeding. Arrests the week after the trips started dropped from 76 to 25.

Revokes Driver's License.

ARID AREAS ARE BEING RECLAIMED

Government Bureau Adds 1,675,-000 Acres in 20 Years.

nual Report Gives Result of Twen ty Years of Operation of Reclama tion Act-Government Investment \$135,000,000.

Washington.-A 20-year review overnment reclamation work is contained in the annual report for the fiscal year ended last June of Director Arthur P. Davis of the United States reclamation service of the Department of the Interior, as the 17th day of June, 1922, marked the completion of 20 years of operation of the national

reclamation act. The investment of the government during this period has been in round numbers \$135,000,000, which has accomplished the construction of works

schools, playgrounds and churches be limited to ten miles an hour; that plying more than 30,000 families. priva judges be authorized to revoke speed. With the investment mentioned the water ors' licenses; a uniform signal system of the service has excavated more than 200. Ice.

00,000 cubic yards of earth and rock, of which about 14,000,000 cubic yards have been placed in dams. Canals aggregating more than 13,000 miles have been built, including 27 miles of tunnels and 135 miles of flumes. Structures of all kinds and sizes, to the number of 110,000, have been erected in connection with the work.

Some of the large projects constructed are the Roosevelt dam in Arizona, which is 200 feet high; the Arrowrock dam in Idaho, 349 feet high; Elephant Butte dam in New Mexico, 306 feet high, and the Path 218 and 328 feet high, respectively.

Reclamation work also included the erection of many other dams canals and tunnels, flumes, drains, power plants, transmission, and telephone lines, roads, railroads, pumping plants and a variety of other classes of in cidental work

From an agricultural standpoint, injuries in traffic accidents up to the middle of November, is employing workhouse sentences and morgue and hospital visits, as well as fines. Six speeders were sentenced to attend the funeral of a four-year-old victim of a speeder.

City Law Directer Lambius proposes the speed of automobilea passing schools, playzounds and churches be farm of about fifty-three acres, sup-farms on government projects in 1921. the report said, the reclumation serv about \$45,000,000 additional raised on private projects which were furnished water from works crected by the serv-

FOX BROTHERS' TRICK when he felt something on his back

IT WAS a long way around the pond and a long way across, so which-ever way he went it meant a long walk fer Mr. Fox, and he was in a hurry to get to the farm on the hill on the

other side of the pond.

"If I could only slide across," thought he, "and I could, for I have an eld sled. If only I had some one to push me and give me a good start. Coming home I could take my time."

seemed to him, and so Mr. Fee trotted off to Mr. Coon's house to ask him to push the sled.

If Mr. Fee had not been unkind to

ittle Reddy Fox and his brother Rey he would very likely have had a long silde across the pond and arrived early at the farm.

But Mr. Fox had met the little Fox

But Mr. Fox had met the little Fox brothers one morning very early when they had been out hunting and taken from them a fat chicken which they were carrying home for breakfast, which was very wrong as well as unkind, because the strong should never take advantage of the weak.

The little brother Foxes did not forget this, and when Mr. Fox called on Mr. Coon to ask his help the little Fox brothers happened to be passing and heard what he said.

All the way home they were thinking what they could do to plague Mr. Fox and spoil his trip across the pond

Fex and spoil his trip across the pond that night, and before it was time for Mr. Coon to be at the pine tree by the pond the Fox brothers had thought of a plan to pay Mr. Fox for taking their chicken.

their chicken.

It was not a moonlight night, and
so when Mr. Fox and Mr. Coop met
they did not see any one behind the
tall bushes and rocks by the fir tree.

A LICE, curiously

Man's name, not a woman.

Originally it was given to the sons of the family, and is, without doubt, derived from the Angio-Saxon Adelgis, of which the feminine form was Adelgisa. It means noble, in both its masculine and feminine forms.

It is clear that Alice represents and Adelgis and not Adelgisa, and that the proper feminine form would be aliza. Some believe that Eliza, gender to be a derivative of form. For the old song, "Ben Bolt": Adelgis and not Adelgisa, and that the proper feminine form would be Aliza. Some believe that Eliza, generally thought to be a derivative of Elizabeth, is this missing form. For proof of Aliza as the representative of Adelgisa, the Liber Vitae of Durham receign the changes in adelgiza from the first holle rady of that name who hild her gifts upon the altar. By contraction it became by steps Adeliza Aliza and Aliza.

iza Anibas and Aliza. Alisa is still given to daughters of health amilies in Europe. Adaliz. Adiz and finally Alis are other contractions. Alica is, a derivation which represents an effort at euphony acking to Alisa but Alisa is not so derived as is popularly supposed, but has completely different origin. Alise is purely English with a slight Tentenic flavor, since another ex-planation of its origin is that the

planation of its origin is that the name is derived from the feminine Mailbert or Adelchen signifying Anughter in Frankland. Alix or Laftler in Lombardy was naturalized in Engrand when Alix la Belle married

The Friendly Path

By WALTER I. ROBINSON

THE FUTURE

L EARN to stand on your own feet, Leakn to stand on your own feet, he we make headway by depending on others, but the majority must hoe their own path. Unless one, therefore, has confidence in himself and is able to cause others to trust and believe in him as he deserves, he is not likely to make much headway and his pathway will, in all probability, be hedged with thorny briars. Day after day, as he-plods onward toward his day, as he plods onward toward his uncertain goat, his life is likely to be disturbed and his happiness destroyed by the thorn pricks every time he halts to reflect on the heat waste as in his

in the social world introductions are necessary. Those who push themselves into the midst of a formal party unannounced could expect nothing else but ley stares and an unpleasant departire through a rear door. But in the world of business, industry and finance

tire through a rear door. But in the world of business, industry and finance introductions are not essential to success. Those who bemoan their mission the source of the standing help shows them alread are themselves their own worst handleaps.

A vice president of the United States Chamber of Commerce, still actively managing a big manufacturing business, though he is up in the eightles, recently declared that he didn't consider introductions of much value to those seeking business or industrial success. He tells a story to illustrate his reason for confidence that big men trust others just as quickly without introductions as with them, providing those seeking recognition believe in themselves and have the proper sort of personality. He declared that when banks in his own city were too small to extend to his business sufficient credit, he went to New York, without introduction and, by stating his situation frankly, obtained the line of credit he required for his shaps.

Greater frankness would lessen husiness warries today.

LIVE STOCK FACTS

TO WIPE OUT TUBERCULOSIS

State of Washington Expected to Be First to Eliminate Dreaded Cattle Disease.

Prepared by the United States Department of Agriculture.)
Washington is expected to be the first of the 4S states to make definite plans to wipe out all bovine tuberquicals within its borders. In 20 of the 28 counties area eradication work has already been conducted in co-operation with the United States Department of Agriculture. The commissioner of agriculture and the state veterinarian have planned a state-wide veterinarian have planned a state-wide program that will be presented to the legislature in January. The governor is understood to be in favor of the plan and there is every reason to believe that sufficient money will be appropri-ated so that with the co-operation of the department on the present basis all the cattle in the state will be

tested within a reasonable time.

The light infection of the cattle herds in the state and the fact that needs in the state and the last teams most of the cattle already have been tested make the outlook particularly promising. An indication of the low percentage of tuberculosis was found in Spokane county this summer. The veterinarian in charge tested 469 erds, containing 2,754 animals, and

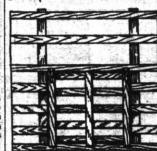

condemned only 4.

Ninety-five per cent of the purebred herds in Washington are already under supervision,

GATE MADE HANDY FOR HOGS

ermits Small Animals to Pass Through, but Horses and Cattle Are Kept Out.

I am sending diagram (D-181) and description of a gate which we have used with much success for about twenty years to allow hogs through but not cattle or borses, writes F. Nolin of Kansas in the Prairie Farm-er. This gate can be of any length or height desired, and as shown the vertiheight desired, and as shown the verti-cal cleats are made long enough to catch on bottom board of fence to prevent pushing and breaking, but if wanted to work both ways the lower projections will have to be cut off. It will be better, however, to keep the gate hooked down, and when wanted

Trap Gate in Fence Allews Hoge or Small Animals to Pase Through, but Prevents Cattle and Horses From Passing. Supply Fasteners to That Gats May He Held Open or Closed

for passing stock through, to raise gate up and book it out of the way. We generally make such a gate out of 1 by 6 rough cypress and about 4 feet high, spacing cracks from bottom up 2½, 8½ and 5 inches.

HAVE MILK HOUSE SEPARATE

Room for Straining, Cooling and Ston age Should So Free From Dust

Every farm on which dairying is an Every farm on which dairying is an important interest should have a milk house separated from the stable. At least there should be a milk room, which though it may be under the same roof, should not open into the stable. The milk should be promptly removed from the stable and carried to the milk room for straining, cooling and storage. This work should be done in an atmosphere free from dust, insects and noxious odors.

Farmers' Bulletin 1214 issued by the

Farmers' Bulletin 1214 issued by the United States Department of Agriculture, gives plans and pictures of milk houses adapted to various conditions. Blue prints may be obtained from the department at Washington, D. C.

IMPORTANT FEEDS FOR SOW Ration Supplied While Carrying Her Litter Must Contain Proteins and Minerals.

The ration which the sow receives while she is carrying her litter must be plentifully supplied with preteins and minerals. These important food materials not only affect the quality, but also the number of pigs which are forcested.

Time to Wean Pigs.

Pigs may be wested when they are shout eight weeks of ags. When the pigs are two or three weeks old they hegin to take an interest in the grain fed their mothers, and this should be encouraged.

Consideration for Animals.

Be considerate of farm animals; it pays.

Save the Food Sitt,
Put up the stock when cold rains
come, and it will save you lots of feed.

CHAMPION CHILDREN'S CAUSE

On Children's day during the recen On Children's day during the recent Safety Week campaign in Greater New York, boy scouts directed traffic, gave demonstrations of first-aid and marched 7,000 strong in a mammoth children's parade. The scouts wore buttons containing the Safety Week slogan, "Don't Get Hurt!" and carried impressive mottoes emphasizing the impressive mottoes emphasizing the need of caution, such as: "The A. B. C. of Safety Is, Always Be Careful,"
"Better Be Alert Than a Cripple," "A
Rash Minute and a Human Wreck,"
"Better Belated Than Mutilated," Scouts Are Trained for Safety," "B

Prepared Is Our Motto."

At the foot of a monument erected in Central park to the memory of the 1,054 children of Greater New York whose lives were lost in 1021 through preventable accidents, the mayor dec-orated with a gold medal Scout Samuel Levine, who, because of his thrill-ing rescue of two boys under desperate circumstances had been selected as the ing rescue of two boys under desperate circumstances had been selected as the boy scout of Greater New York who had performed the most meritorous act of life-saving. The medal was especially designed and was the gift of Judge

Elbert C. Gary.

Because of the number of acts of heroism performed by scouts, the committee who selected the boy to receive the medal found it difficult to reach a decision. Among the outstanding cases were the rescue by individual scouts were the rescue by individual scouts of a small girl, whose dress had caught after while she was playing near a bondre; of a small boy who fell from a dock into deep water; of a girl who had broken through ice while skating; of a young woman who had discarded her water-wings, and unable to swim, ventured too far out in the surf; and of a boy, not a scout-who was being carried away by a welf to water. carried away by a swift current. The last mentioned rescue was performed by a scout who had sight in only one

Kicking Up Political Dust in the Public Schools

The president and the governor oth have said: "There's too much

politics and not enough business.' This should not apply to our common school system, but -it is wident that there is an inclination

on the part of a small minority o devote themselves more to politics than to the legitimate business of education.

This paper is strongly opposed

o making the public or common schools an instrument to serve the private ambitions of a few politicians who may be masquerading as edu cators, and whose object is to strengthen a "machine or system" to further their own selfish interests. The American idea of the common school is that it is a neighborhood or district activity, in which the parents and taxpayers are directly interested, and whose authority in educational energies should be

When politicians attempt to time for parents to cast their ba!lots intelligently, without political bias or prejudice, for school trustee candidates who are qualified to render impartial and practical service; who will take a direct interest is your children, that they may have the full measure due them

in educational advantages. It is to be hoped that in the coming school elections only the fit are selected to shape the dest nies of our public educational institutions. Our schools are the bulwark of the nation, the foundation upon which must depend the character of our future citizenship.

Who's a Capitalist? Some Say the "Guy" With Good Health

"Every man is a capitalist who spends less than he makes," says ames K. Emery, counsel of the National Association of Manufac-

"To-day the whole system of ndividual possession and personal freedom is undergoing world-wide socialistic assault. Propagandists of unrest are striving to convince the workers that collectivism is bound to replace individualism and that the laying by for the rainy day is futile, for property rights are not rights at all, according to Marxian dogma.

Whoever excites thrift in another helps that other to become and remain an owner of property. Every man who helps another build a home adds a hostage to so cial order. Every man who helps another ,to become a shareholder in industrial enterprise gains a recruit for social stability."

Is Public Ownership the Only Solution?

Senator James Couzens of Michgan, who, before he went to the Senate attracted wide attention as dministrator of Detroit's municipally controlled street-car sysem, recently told the Philadelphia real estate board that although he had an "open mind" on the railroad problem, it appeared to him that government ownership of the roads furnished "the only solution."

Senator Couzens failed to give any idea how goverment ownership would in any way help the railroad system or the people.

Detroit citizens were told that municipal ownership would solve the street-car problem in that city and earn its way. Yet in less than a year the people are asked for millions for expenses which the tormer private company had to

THE TERMINAL pay out of its earnings from fares charged.

It seems that expenses go on just the same under municipal or government operation, and property thus taken over is automatically dropped from the tax rolls. The public in addition to support ing the property has to pay increased taxes to make up for the sum lost to the public treasury through the publicly owned prop erty which pays no taxes.

Mercantile Trust Co. to Erect Berkeley Building

Berkeley, March 9.-Vice-Pres ident and Managing Director Frank N. Naylor announced that following the widening of Center street from Shattuck to Grove, the Mercantile Trust Co. will begin their new bank building at the northwest corner of Shattuck and Center.

Manager Naylor says the new structure which is to house the bank will be one of the finest on the Pacific coast, bar none. The expansion of the bank marks

another step in the development of Berkeley and the surrounding

Two Trains of Nash Autos Enroute to Pacific Coast

Kenosha, Wisconsin, March 9.-Transporting the biggest single throttle our whole educational shipment of automobiles ever made system, whether the inception is to one state at one time, two in Sacramento or Milpitas, it is Southern Pacific trains are now moving west to Culifornia, one by way of Ogden and the other by way of El Paso. The shipment is from the Nash automobile factory at Kenosha, Wis., to Nash dis tributors in California, and is val ued at about a million dollars.

There are 60 freight cars in each train, and five automobiles to a car making a total of 600 automo biles in the shipment. Practically all of them were sold before the trains left Kenosha, according to he Nash distributors.

YOUTHFUL WORK NOT BEST

Few Writers Who Have Attained Im-mortality Were at Their Great-est in Early Years.

Some years age Sir. William Robert Round of the Clock: the Story of Our Lives from Year to Year." He divided life into 12 lustrums—that is to say periods of five years—and likened 12 lustrums, 60 years to the round of the

Sir William endeavors to describe the characteristics of growth, drawing on a very wide knowledge of bl ography and a prodigious memory. He brings together a great number of il-luminating facts. Sir William does not believe in the comparative useless-ness of men over forty. He quotes some words of Lord Macaulay in one of his speeches, "No great work of imagination has ever been produced under the age of thirty or thirty-five years, and the instances are few in which any have been produced under the age of forty."

Cervantes was fifty-two when he pub-Cervantes was fifty-two when he published the first part of "Don Quixote," Bunyan fifty when "The Pligrim's Progress" appeared, Defoe fifty-eight when he wrote "Robinson Crusoe," Scott forty-three when the first of all his Waverly novels was launched, and Milton fifty-eight at the date of "Paradise Lost." At forty-one Dumas wrote "The Three Musketeers." At forty-two Beacon set to work on his "No. ty-two Bacon set to work on his "No-vum Organum." At forty-four Newvum Organum." At forty-four New-ton began to issue his "Principia," and at forty-five Chaucer to write his "Can-terbury Tales." At forty-seven Mon-taigne published his essays, and at forty-eight Lamb his "Essays of Eila." Rabelais launched his gigantic me-dieval masterpiece at forty-nine. Edward Fitzgerald was fifty when his "Omar Khayyam" began to wait for recognition. Adam Smith published his epoch-making work, "The Wealth nis epoch-mang word, The Ventuck of Nations," at fifty-three, John Locke his "Essay Concerning Human Under-standing" at fifty-sight, Jonathan Swiff, his "Guillver's Traveis" at fifty-nine and Iznak Walton his "Compleat An-gler" at sixty.—North China Herald.

APPRAISING THE SPARKLE

Jack and I had become engaged that evening and he had given me. the ring. I thought it pretty, of course, but it didn't sparkle to suit me. I wondered whether it had cost much, so I spoke about the lack of sparkle to my mother the next morning and she advised me to ask a jeweler about it when I went down-

Well, I called at a shop and asked the jeweler to tell me the worth of the ring.

He examined it, then smiled at me and said: "I'm sorry, young lady, but this ring was purchased here and we never tell the value of anything bought from us."-Chicago Tribune.

"Do you think this is the day of

the young man in politics?"
"Youth has its advantages," Senator Sorghum. wouldn't be a doubt about my reelection if I could jump in and pitch a winning game for our local base-

The Woes of the Bachelors.

In Belgium the bachelors have be-gus to tremble. The provincial coun-cil of Halmant has voted for a bill im-posing a surtax of 25 per cent on all the provincial taxes, to be paid by male

ble-bachelors from persisting in cell-bacy. They invoke a legendary exam-ple. It was in the time when certain

men condemned to death were par-doned if they consented to wed a maiden desirous to marry; who thus in her hand brought them to life. Now, one of these, at the hour when he was to be hanged, wanted to see first his future wife.

She was of a canonical age, and ardly a beauty.
"Hang me!" he cried, and stepped to

Many of the Halnant cellbates will therefore—annoyed or not—pay the 25 per cent surtax.

Return to Land of Their Fathers. For 167 years the Acadian people the fateful August in 1755, which wit-nessed the deportation of the Acad-ians from the shores of Minas Basin. August 16, 1922, in the village of Grand Pre, a host of Acadian descendants gathered on the very site of the trag-edy of expulsion and took possession of their heritage-historic ground or which they consecrated to the memory of their fathers the Acadian Memorial chapel. Exiled for nearly 170 years, their wanderings in strange, far-off villages and cities, the race scattered t the four corners of the continent, i seemed almost incredible that the Acadians should again be restored to that fertile Gaspereau valley, cleared, tilled and enriched by the farms which they had homesteaded in the early set-tlement of Acadia.

Besides, Few Believe.

Richmond

Jud Tunking says a man who brags about leaving office poorer than when he entered it merely irritates the bill

Manhattan Brought Small Price.
The three-hundredth anniversary of the founding of New York will be cele-

brated in 1926. brated in 1926.

L. Wittert van Hoogland, in an artiele, "Holland and Her Colonies," just
published, retells in an interesting way
the story of Peter Minnit's purchase
of, the island of Manhattan, 24,000
acres, for \$26, the assessed valuation
of which is \$0,000,000,000. Minuit, who
inter became first governor, of Manhatinter became first governor, of Manhat later became first governor of Manhat-tan, represented the chartered West

company of Amsterdam. Up to half a dozen years ago it was generally believed, and in many circles that belief persists, that New Amster-dam was founded, not in 1626, but in 1624. Recent investigation and discoveries point to the fallacy of this con says Mr. Van Hoogland.

Butter or Beauty?
A young woman of Petrograd, relates a Russian paper, recently received from her brother, a farmer in the suburbs, a pound of butter. Now, in Petrograd a pound of butter, at the present time, is a royal present, and it is no wonder that the most seductive offers were made to the happy woman; millions and millions of rubles being thrown at her feet. She disdained them, however, preferring to keep her

butter But at last there came a man wite, being an expert psychologist, offered her a—pot of cold cream! Immedi-ately the lady accepted the barter, demonstrating that the desire for beauty is stronger than—the taste for butter

An electric fan of light voltage capacity for use in sedans, limousines and motorboats is now on the market.

Safeguarding the Miner. Safeguarding the Miner.
To protect the miner against his ancient enemy, inflammable gas a mining engineer has improved the standard type of miner's lamp. He has added a device which causes the lamp to emit a loud singing note as soon as
